

BLADERUNNER®

Outdoor power equipment belts

Gates BladeRunner® belts are engineered and built to exactly match the composition, construction and fit of most popular lawn and garden power equipment brand names.

Identification:

Durable marking indicating type.

Construction:

- Exact OEM fit and construction means more value and longer life.
- Aramid cord construction is utilised in many cases, providing longer service life during frequent and severe shock loads
- Built to withstand the rigorous start and stop operation of lawn and garden equipment

Advantages:

- Excellent performance/cost ratio.
- Long belt life reducing replacement and maintenance costs.
