

Banding Systems

Breeze Make-A-Clamp

This is a maintenance "clamp system" in a box. By simply cutting off a piece of banding from a continuous roll, you can make any size 100% stainless steel worm-gear clamp from 3" diameter on up (10 inch or 10 foot diameter, you pick it and you do it in fifteen seconds). It's a must for anyone who's likely to encounter requirements for varying sized large clamps. Reusable. Superior to and more versatile than "crimp/buckle" banding and strapping products.

1/2" (12.7mm) band

5/16" (7mm) slotted hex head screw

9/16" (14.2mm) wide stainless steel fastener & screw/
housing assemblies
