

PRODUCT PROFILE

POWERCORE® INLET ADAPTER KITS

Inlet adapter kits for PSD09, PSD10, and PSD12

Three Simple Installation Steps

- 1 Push the 4 U clip nuts onto the mounting points around the inlet tubes. Ensure the threaded side is facing in toward the air cleaner.

- 2 Fit the sealing tape to the inside edge of the adapter including the half round cut-outs, leaving no gaps.

- 3 Push the PowerCore® inlet adapter over the end of the air cleaner until the holes are aligned over the U clip nuts. Insert the bolts, with washers, into the holes and tighten gently.

Donaldson introduces our new PowerCore® Inlet Adapter Kits. They are available to fit all PSD09, PSD10 and PSD12 catalogue model PowerCore® air cleaners. These quick and simple to fit kits allow even greater flexibility in the application of the PowerCore® air cleaners with all the advantages of the new PowerCore® technology.

FEATURES & BENEFITS

- Suitable for both on and off road applications
- Kits to suit air flows from 267 - 915 CFM
- Each kit fits vertical and horizontal model PowerCore®
- Inlet size: PSD09 4" / 102mm
